

The cargo bike for your business

A transport solution for any professional.

URBAN ARROW

Hi there!

We are Urban Arrow and we have been building top-quality electric cargo bikes since 2011. In fact, we were the first to do so. And we make no secret of the fact that we are crazy about them!

But there's one thing that's even more important to us: the person riding the bike, yes you. With every bike we build, we have you and your specific needs in mind.

Whether you want to get from A to B in the smoothest way possible, bring your children to school safely and hassle-free, reduce your carbon footprint, ride an award-winning cargo bike or deliver goods more efficiently to your customers, or simply find the vehicle that is the most fun for you and your passengers!

Whatever it is you care about, Urban Arrow's got you covered. Our mission is to improve your life with our cargo bikes. Cleaner. Faster. And more efficient.

URBAN ARROW

Why Urban Arrow?

A bike you can trust

Since 2011, we have been making top-quality electric cargo bikes that people can rely on. With our riders (and passengers) in mind, using trusted Dutch craftsmanship and renowned partners such as Bosch, Enviolo and Schwalbe, we offer you a bike you can always rely on without giving it a second thought.

The smoothest ride

Speed, comfort, safety and quality combined. Urban Arrow provides the best user experience by offering 'the smoothest ride'. Its robust design and proven agility make it the ideal vehicle for families and businesses around the world.

Whatever the cargo

Our wide range of cargo bikes and accessories offers an easy and sustainable solution fit for any purpose. Whether you're taking your precious little cargo from A to B or moving important goods around. Whatever you're transporting, we've got you covered.

Cargo

Fast deliveries. Effortless parking.

A smart investment

Maximum volume, minimum cost. The Urban Arrow Cargo is an electric cargo bike for long-term, regular use. With a low Total Cost of Ownership (TCO), this cargo bike has already won the hearts of many business owners. Access all zero-emission zones, claim government subsidies and save time, parking and fuel costs.

Outsmart the traffic

Wat je ook vervoert, met deze elektrische vrachtfiets blijf je in jouw flow. Pak de kortste routes, omzeil de spits en files, manoeuvreer moeiteloos door de kleinste steegjes en parkeer pal voor de deur. Zo kom je met gemak in alle hoeken van de stad en bereik je meer bestemmingen in minder tijd.

A box that fits your needs

Packages, meals, facilities or services. Whatever type of product you provide, Urban Arrow Cargo has the solution for every company. The wide choice of accessories and boxes – which can also be personalised – means there is always a bike that suits your needs. So you can get the job done quickly and easily.

Tailored to your needs

You'll always be prepared with our extensive range of Urban Arrow accessories. Choose the right box to transport your precious goods (enclosed) and then increase comfort with, for example, a rear carrier and the Bosch DualBattery Kit that doubles the mileage. Wherever you go, we have the perfect accessories for you.

Now put together your Urban Arrow Cargo L or Cargo XL with accessories in our online configurator.

Tender

High-volume has never been so compact.

To the max

The volume and load capacity the Urban Arrow Tender offers exceeds all expectations and has the capacity to make conventional vans outdated and obsolete. Transporting large and heavy shipments to challenging locations has never been easier. And with our wide range of different configurations, the Tender can be used for all kinds of purposes.

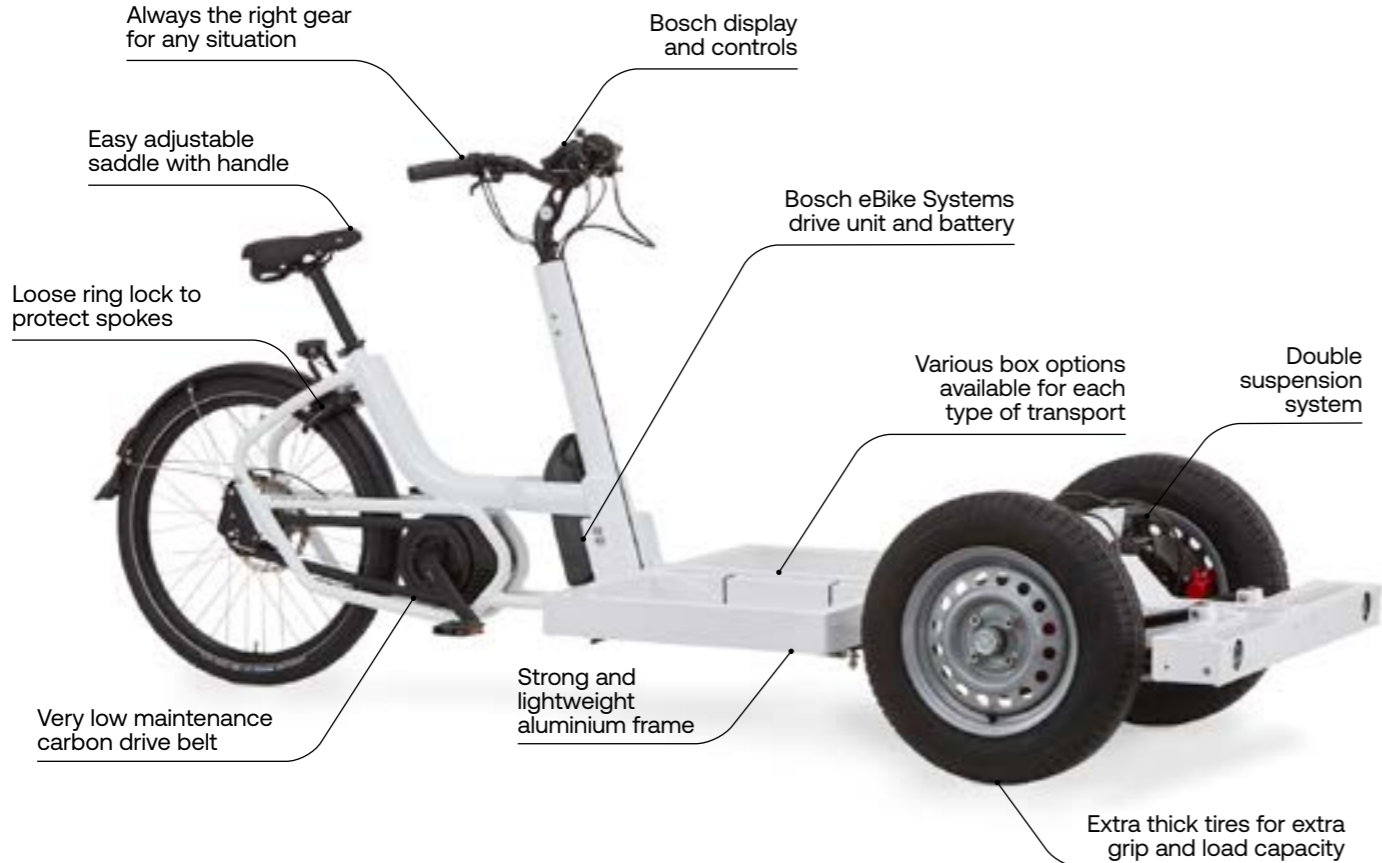

Steady & ready

Met het stevige driewieler-frame staat de Urban Arrow Tender altijd superstabiel en klaar om te laden en lossen. Fiets vlot langs je bestemmingen met deze ultieme zakelijke vrachtfiets en parkeer zonder problemen voor de deur. Handig, veilig en gemakkelijk met de ingebouwde handrem.

Endless power

With a combination of parts from the automotive industry, a cleverly designed frame and spacious box options, you know that you have a strong and high-quality product in your hands. The Urban Arrow Tender is designed for heavier loads, frequent use and maximum volume. The powerful Rohloff hub gives the best gearshift convenience and easily gets you up to speed!

Upgrade your ride

Expand the versatility of the Urban Arrow Tender with our available designs and accessories. Effortlessly transport your valuables exactly the way you want. You can even double the mileage with the Bosch DualBattery kit and transport even more with our versatile rear carrier. Build the Urban Arrow Tender according to your needs and park easily in front of your customer's address. No worries. You can rely on us.

We help you choose

The Tender is popular thanks to its high-volume yet compact design. Many companies have been able to switch their conventional company vans for a Tender, so they can be future-ready and prepared for zero-emission zones and car-free streets. The size of the Urban Arrow Tender and design that is best suited to you depends on your needs and, of course, what you want to take with you. One thing is certain: there is always an Urban Arrow Tender that matches your company.
